

Maintenance Technician

Position Summary

Reporting to the Maintenance Manager, the Maintenance Technician is responsible to assist in the routine servicing and maintenance for production related machinery and for assisting machine operators, assemblers and other workers as required. The Maintenance Technician will work in conjunction with the Millwright and the Sanitation crew to ensure that machinery is maintained, dried, and reassembled in a manner that enable us to start production safely and on time each morning.

Duties and Responsibilities

- Machine set up and tool changes as required on daily basis.
- Lubricate and clean machinery as instructed by millwright or maintenance lead hand.
- Assist millwrights to install and commission new machinery.
- Cuts, welds and fabricates some pieces of equipment as directed by millwright.
- Clean and maintain shop and tool room as directed by maintenance supervisor or planner.
- Helps sanitation crew with disassembly and assembly of production machinery.
- Understands and practices the principles of GPM while performing assigned tasks.
- Performs other duties of a similar level or nature upon instruction.
- Performs all troubleshooting and preventative maintenance tasks in a safe and efficient manner

Experience, Skills, Knowledge and Abilities

- Demonstrated mechanical background
- Familiar with manufacturing machinery and associated tools
- Food manufacturing experience
- Strong organizational skills with the ability to prioritize work load
- Ability to work in a fast paced, time sensitive environment
- Strong communication skills at all levels
- The individual must have the ability to work independently, be reliable and punctual.
- Shift flexibility is required

Shift

- 3:00am to 11:00am

If you are looking to work in an environment that fosters learning and personal involvement, then this is the place for you.
